

Product information:

The CLA716 is fitted with a 3.5mm male jack stereo connector on both sides of the cable and constructed using the SIG144 cable. The easy to handle PVC jacket is excellent for fixed indoor and mobile applications. The inner conductors are fitted with a durable shielding. This gives an excellent protection against interference of all kinds such as electromagnetic fields produced by dimmers, electric motors or power cables. The SIG series cables are "all-round" signal cables which are suited for all kinds of applications where reliable signal transmission is needed. It comes in lengths of 0.75 meters to 15 meters, providing solutions for all applications.
