

## Product information:

The CLA631 is fitted with 2x mono jack to 2x RCA male connectors and is constructed using the SIG44 cable. The easy to handle PVC jacket is excellent for fixed indoor and mobile applications. The inner conductors are fitted with a durable shielding. This gives an excellent protection against interference of all kinds such as electromagnetic fields produced by dimmers, electric motors or power cables. The SIG series cables are "all-round" signal cables which are suited for all kinds of applications where reliable signal transmission is needed. It comes in lengths of 1 meters to 5 meters, providing solutions for all applications.

## Highlights:

- 28 AWG thin and dense stranded conductors
