

Product information:

The CLA705 is fitted with two XLR female connectors and two RCA male connectors, the construction is made using the SIG44 cable. The easy to handle PVC jacket is excellent for fixed indoor and mobile applications. The inner conductors are fitted with a durable shielding. This gives an excellent protection against interference of all kinds such as electromagnetic fields produced by dimmers, electric motors or power cables. The SIG series cables are "all-round" signal cables which are suited for all kinds of applications where reliable signal transmission is needed. It comes in lengths of 1 meters to 3 meters, providing solutions for all applications.

Highlights:

- 28 AWG thin and dense stranded conductors
- Flexible PVC jacket
- Spiral shielding
- Oxygen free copper
- 4 x 8 mm (Ø) outer diameter

Components:

- CableType: SIG44 - Signal Cable
