

Delock Converter USB 2.0 > Serial RS-232 5 kV Isolation

Description

This USB 2.0 to serial RS-232 converter by Delock offers an RS-232 connection for measuring devices, POS systems, printers, modems, IoT devices etc. The galvanic isolation prevents data transmission errors with uneven earthing potentials, ground loops or voltage spikes. The converter is suitable for DIN rail mounting.

Galvanic isolation

The galvanic isolation (5 KV) is done with optical isolators.
